## Lifelong Journey: Healthy Habits MODULE THREE

## **TRYING NEW FOODS**

We need to be patient when introducing children to new foods and it is important to make the experiences fun. It's all about the delivery. Asking children for help, swapping out simple ingredients, or adding a twist on a classic recipe can make tasting new ingredients a more enjoyable experience for everyone. Our 2022 Nutrition Calendar offers many recipes that make a small change to an otherwise familiar recipe. For instance, try a different vegetable or fruit in one of your favorite recipes. Try picking a fruit or vegetable that is in season.

Using the April recipe, Space Fruit Pops, is a great example of re-imagining a sweet treat into a delicious, healthy snack or side. You can add different fruits that kids like and are familiar with or try new ones. Ask the kids to use their imaginations and create their own parfait. Send the recipes home so they can make them with their families.

HELPFUL

You might even try changing how they eat new things to create an exciting experience. For instance, in Asian countries, food is often eaten with chopsticks and in Ethiopia, they serve most dishes on a type of flatbread. Make it a whole grain-rich flat bread and you have met a meal pattern requirement!

FRUITS AND VEGETABLES IN SEASON	
January	Avocados, cabbage, kale, mushrooms, oranges
February	Oranges, tangelos, grapefruit, lemons, papayas, broccoli, cauliflower
March	Pineapples, mangoes, broccoli, lettuce
